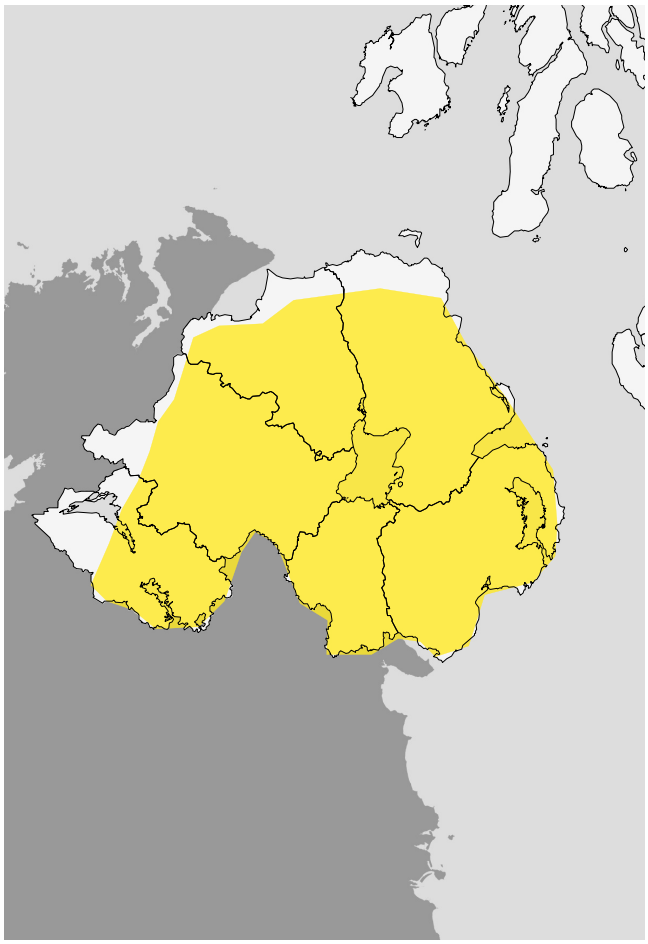
Yellow warning
Ice

Between
05:00 Mon 12 Feb 2024 and
09:30 Mon 12 Feb 2024



Ice forming after rain clears, leading to some difficult travelling conditions at first this morning.

What to expect

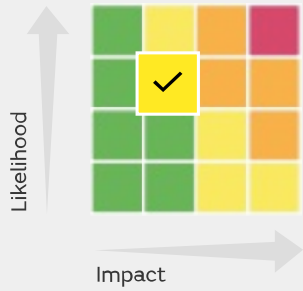
- Probably some icy patches on some untreated roads, pavements and cycle paths
- Some injuries from slips and falls on icy surfaces

Further details

Heavy showers moving east across Northern Ireland will clear, with temperatures then falling below freezing in places to allow ice to form on untreated surfaces.

What should I do?
Keep yourself and your family safe when it is icy. Plan to leave the house at least five minutes earlier than normal. Not needing to rush, reduces your risk of accidents, slips, and falls.

If you need to make a journey on foot, try to use pavements along main roads which are likely to be less slippery.



Medium likelihood of low impacts

Issued at 02:48 Mon 12 Feb, 2024

Yellow warning
Ice

Between
05:00 Mon 12 Feb 2024 and
09:30 Mon 12 Feb 2024

Further Details (continued)

Similarly, if cycling, try and stick to main roads which are more likely to have been treated.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

Be prepared for weather warnings to change: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
